

Solatek Portable Fast Charger DC

SLTK-DCEV-G20-P

Introducing the Solatek Portable Fast Charger for DC GB/T Electric Vehicles – the perfect solution to keep your vehicle charged on-the-go! This revolutionary charging device is designed to provide convenient and efficient charging for your electric vehicle, anytime and anywhere.

With its compact and portable design, this fast charger allows you to charge your electric vehicle's DC GB/T battery with ease. Whether you're at home, at work, or on a road trip, this charger ensures that you never run out of power. Its lightweight construction and sturdy build make it highly portable, enabling you to carry it everywhere.

Equipped with advanced technology, this charger offers incredibly fast charging speeds, significantly reducing charging times. Its compatibility with the DC GB/T standard ensures that it works seamlessly with most electric vehicles, providing a hassle-free charging experience.

The user-friendly interface of this charger makes it easy for anyone to operate. Simply connect it to your electric vehicle, and the clear LED display provides real-time information on the charging progress. The compact control panel allows you to adjust the charging settings effortlessly, ensuring a tailored charging experience according to your needs.

In addition to its outstanding performance, this portable fast charger is built to last. With high-quality materials and a robust construction, it offers durability and longevity, ensuring years of reliable charging for your electric vehicle.

Specifications

MODEL	SLTK-DCEV-G20-P
Input Voltage	AC380 +/-20%
Rated Power	20kW
Output Voltage	DC200V – 750V
Output Current	0 – 50A
Charging Gun Line	5M (Customizable)
LCD	4.3 – Inch Touch Screen
Charging Mode	Touch Startup (Password)
Working Temperature	-10°C +60°C
Protection Grade	IP45
Charging Gun	GB/T, CCS1, CCS2, CHAdeMO (Optional)
Size	540×210×520 mm
Weight	35 Kg
Application Scenarios	EV charging
Portable, Mobile, Compact, Fast Charge
